School leaflet for students by students

We are delighted to welcome you to Nörten-Hardenberg and our new school leaflet. **It is made for interested students by students.** No text is written by a teacher! Everything was done by students, even all the great photos and corrections. We will introduce you to our child-centred school and all the activities you can do at our school. From school trips to sports activities. **Enjoy the ride!** Your 10G

Table of Contents

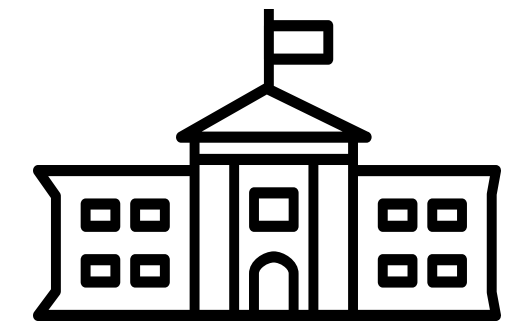

Here you can find a detailed table of contents. We have put together a detailed description of our school. We hope you get accustomed to our school quickly and feel at home soon. These are the information we have put together for you! Welcome!

1

General information about our school

location, times, schedule

Short introduction to our school.

2

School locations (Moringen and Nörten)

History of the KGS Moringen Nörten Hardenberg

The KGS Nörten-Hardenberg is a high school (cooperative integrated school), located in Nörten- Hardenberg. The school was built from 1969 to 1973, as the Novalis School. 1974 the local school reorganisation took place. Because of that some of the schools in smaller villages were closed. The students transfered to the Novalis School in Nörten. Those villages were Bishausen, Sudershausen, Angerstein, Lütgenrode, Wolbrechtshausen, Elvese and Parensen. In 1973 the first students were able to transfer to the school voluntarily. Since 1974 it became an requirement to transfer. If students had a good grade point average they were also able to transfer to a grammar school as well. In 2009 the Novalis school in Nörten-Hardenberg was closed and became a branch of the KGS Moringen. Since then the school is named **KGS Moringen/ Nörten-Hardenberg**.

Nörten-Hardenberg

Nörten is situated on the river Leine, approx. 10 km southwest of **Northeim**, and 10 km north of **Göttingen**. The main town is located on the foothills of the Nörtener Wald but great parts of the municipality are in the Leinegraben, a lowland between the Solling and the Harz. That's why you can get to Göttingen and Northeim with a bike very easily.

Nörten is also known for its' **Hardenberg Castle**. It was first mentioned in 1101 and built by the Electors of Mainz.

Our school system

The KGS Moringen is an integrated school, with a grammar school, middle school and main school. Furthermore you can also do your A-levels in Moringen.

5th and 6th grade In the 5th and 6th grade the grammar school, middle school and main school students will be taught together in the same classes.

There are **different levels of difficulty** in these classes, basic requirements and advanced requirements.

After 6th grade you split up into different German school forms, depending on what graduation you want to do.

In 6th grade you also have to decide which second foreign language (**Spanish or French**) you want to study in school. When you want to get into grammar school you have to do a second foreign language, but you're also able to do it if you are a middle - or main school student.

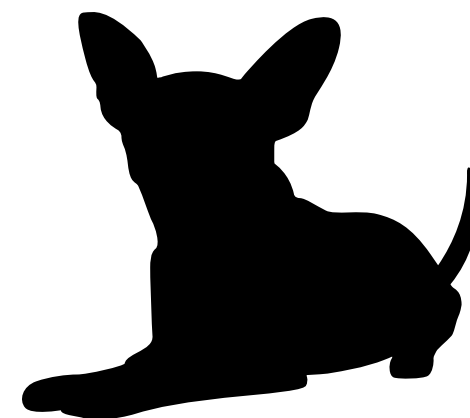

Project groups at the KGS Nörten

Girls' team

Dear students and parents, finally girls are among themselves, do things that normally boys or men would do. We will try anything. We want to manufacture, try and test. We are looking forward to hearing from you!

All about the dog

Dear students and parents, in this project we will learn everything about the dogs Daisy and Lennox. We acquire basic knowledge about different races. You should not have a dog allergy and your parents should be fine with you joining the project. Daisy and Lennox are looking forward to hearing from you!

Project groups at the KGS Nörten

Choir

Dear students and parents,
who wants to test their own voice and doesn't know how? Who wants to stand on a stage - with other people or alone?

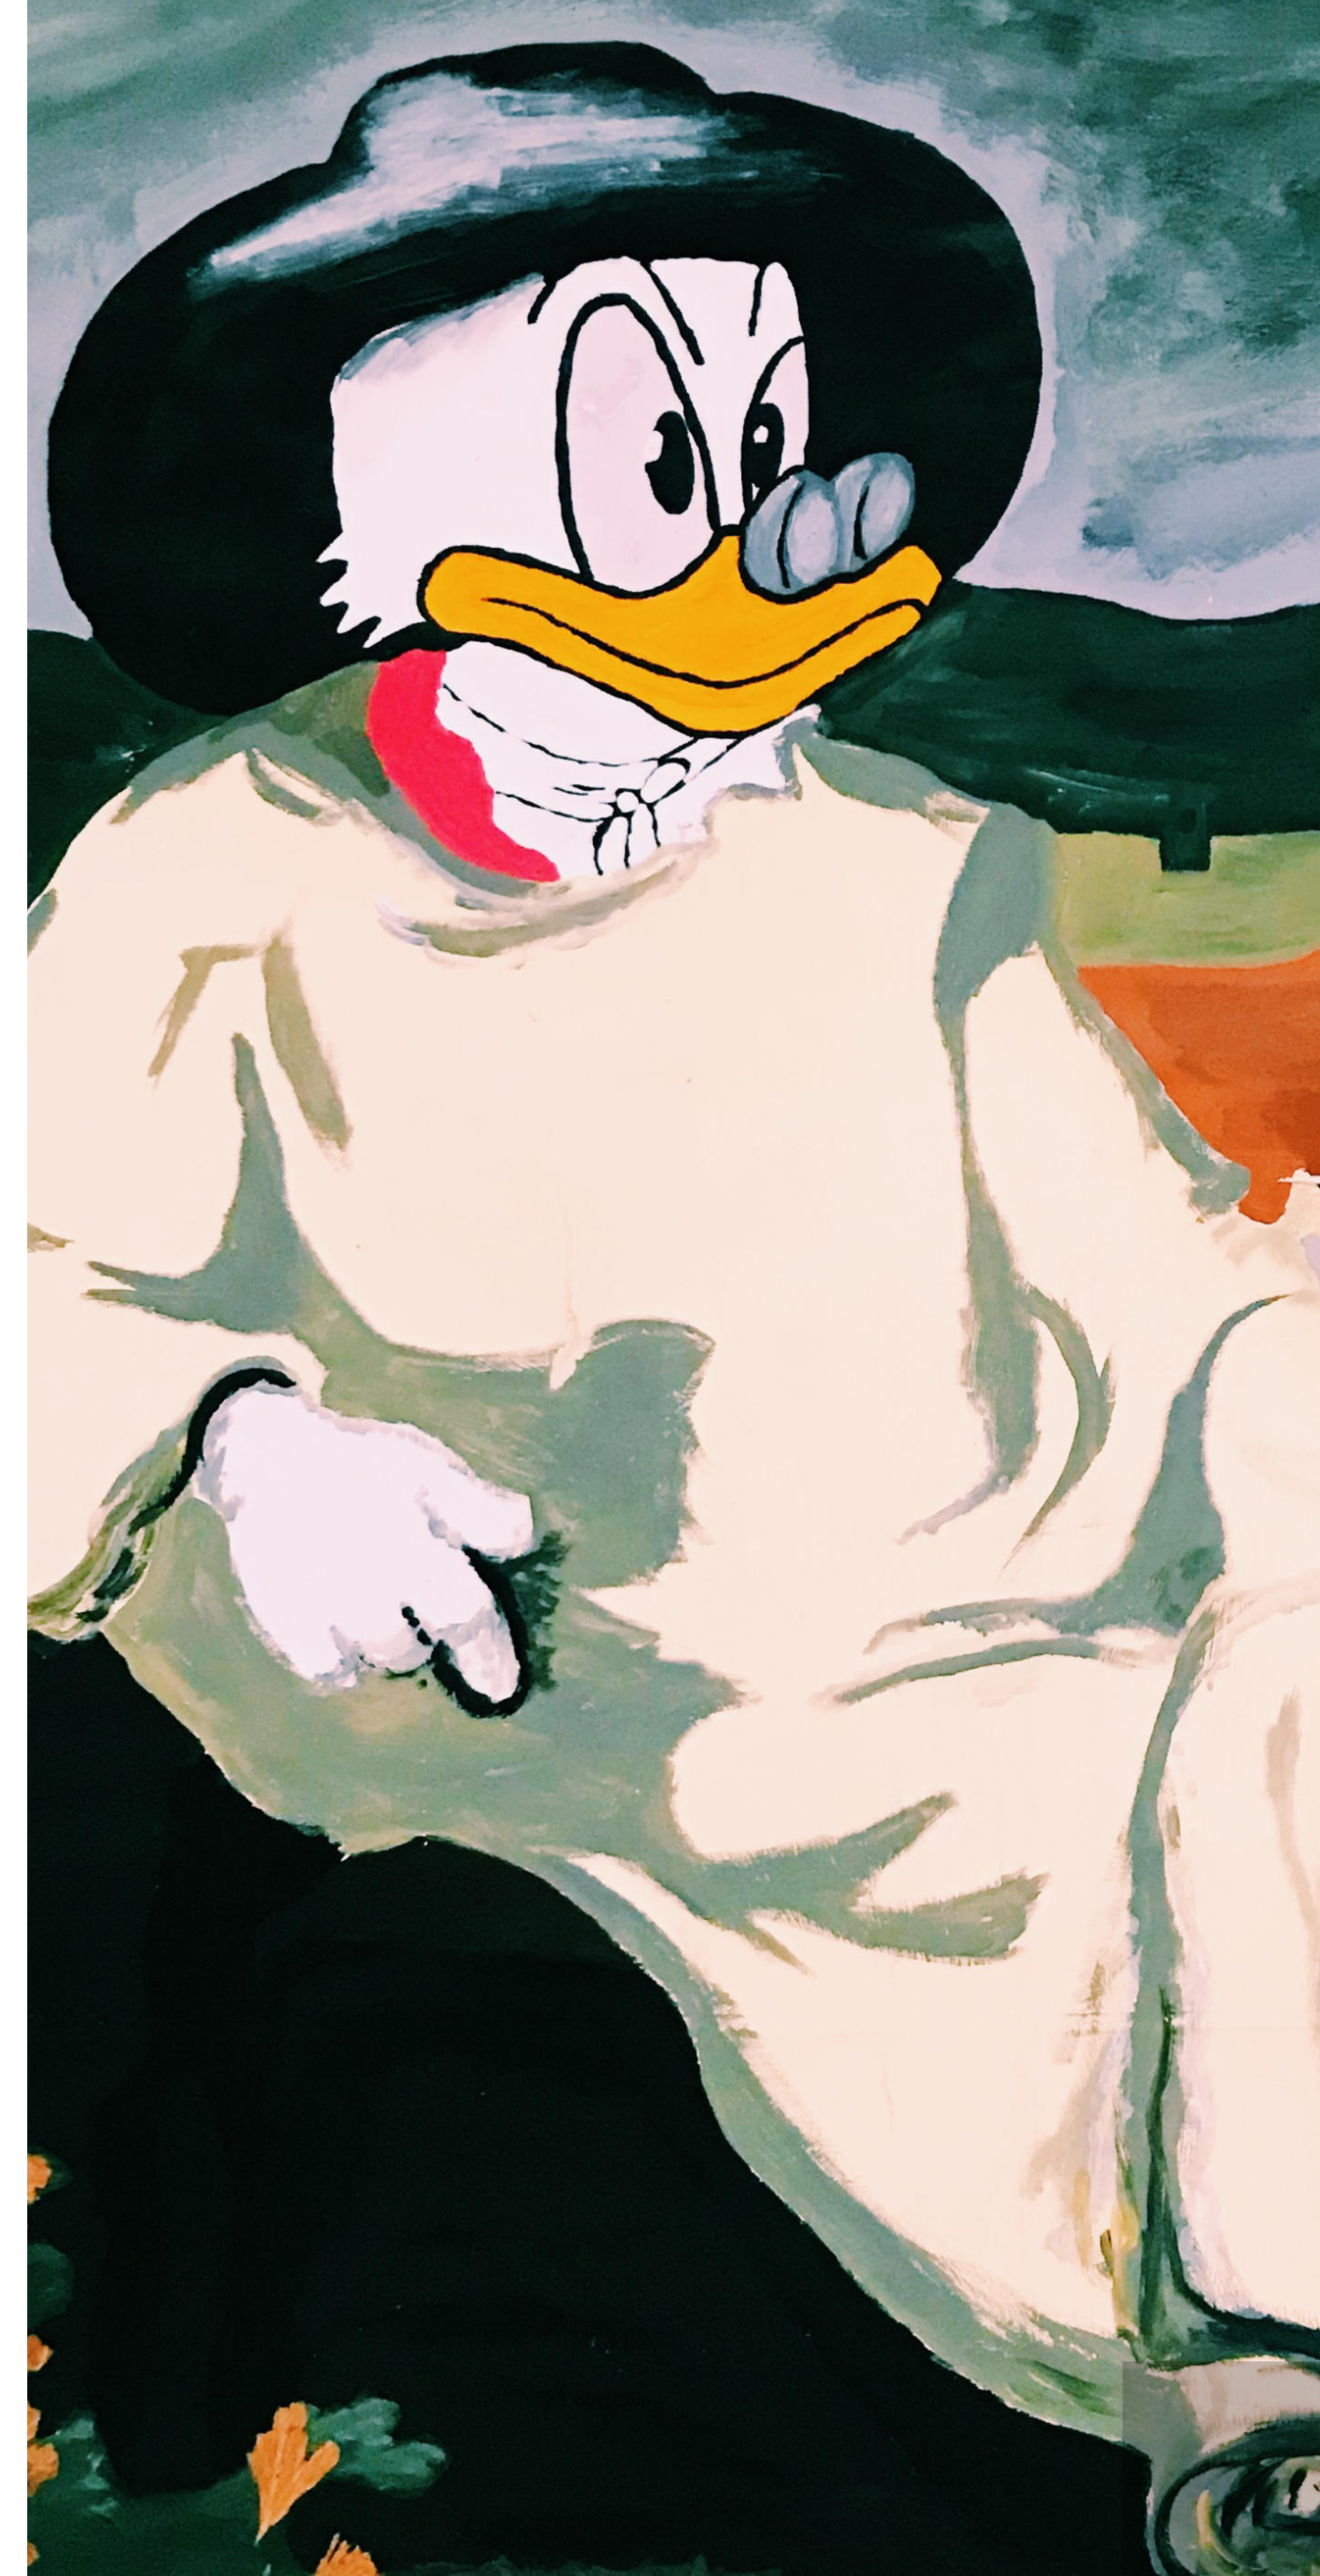

In the new choir you get the chance to perform new and old songs. Every Wednesday in the 7th and 8th lesson.

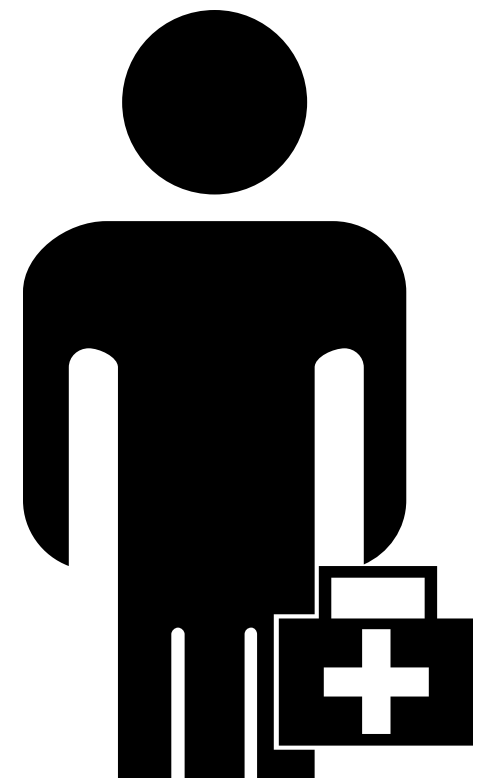

I'm looking forward to hearing from you!

Soccer

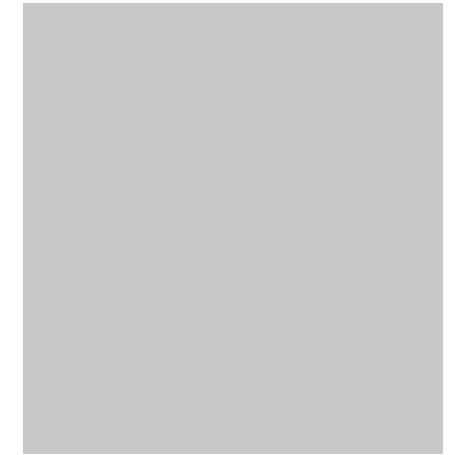

Dear students and parents,
since 2015 the KGS Moringen is a DFB partner school. In this project ten to twelve talented footballers practice together. They get trained by skilled coaches. This project is headed by Mrs. Völker. She decides which boys and girls are allowed to participate.

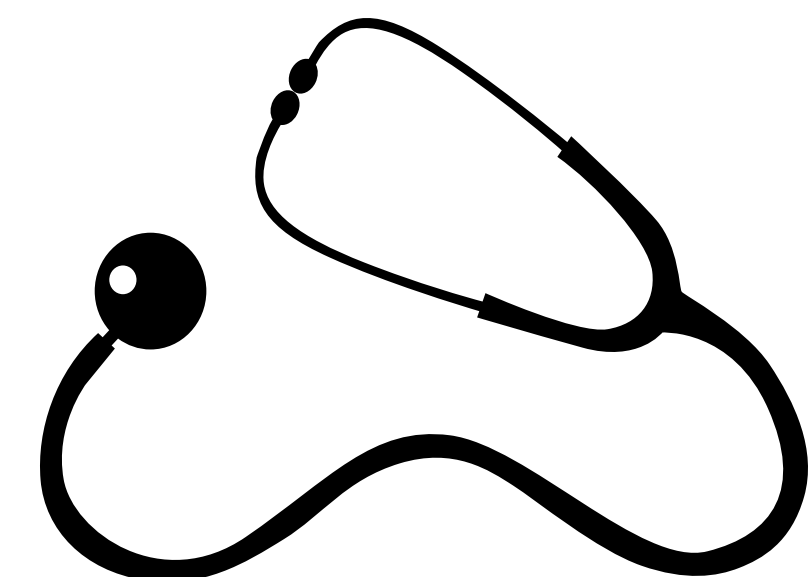

Project group: Paramedics in school

You need help but don't know where to get it from?
The paramedics in school can help you.
If you hurt yourself or if you just need somebody to talk to - We'll be there for you.
You can find us near the main stage and the toilets.
You can become a paramedic in school if you interested!

- Are you interested in being a paramedic?
- in grade eight or older?
- did you do a special workshop for being a paramedic in school?

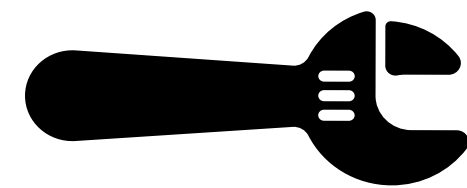

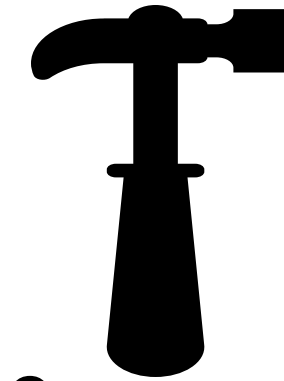

Then join us!

Project groups at the KGS Nörten

Handicraft

Dear students and parents,
We will work with different materials. We start with wood and we want to manufacture different things like sculptures. How we will continue depends on your prior experience. Please bring 2€ for the material. Furthermore you need an old folder with pieces of paper, a pencil and a bag.

Bienvenue en France!

Dear students and parents,
The project team "Bienvenue en France" France is filled with interesting and picturesque cities. This project allows students to get to know the French culture.

Project group DFB Elite and Talent Development

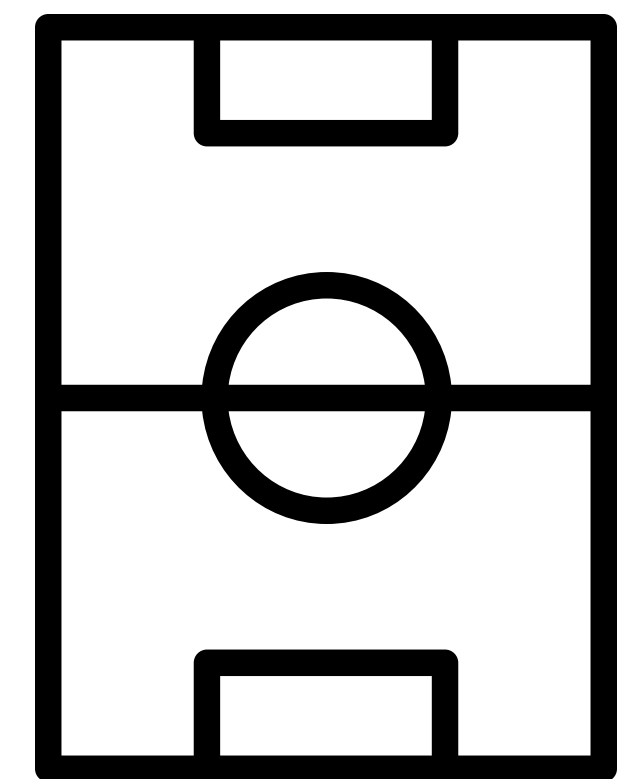

PART I: Gain exercise experience

Running, jumping or hopping.
Running and tee games.
Tasks with and on gym equipment.

Various tasks with the rolling
and bouncing ball.
Small ball games.

DFB Elite and Talent Development

PART II: Experience playing football

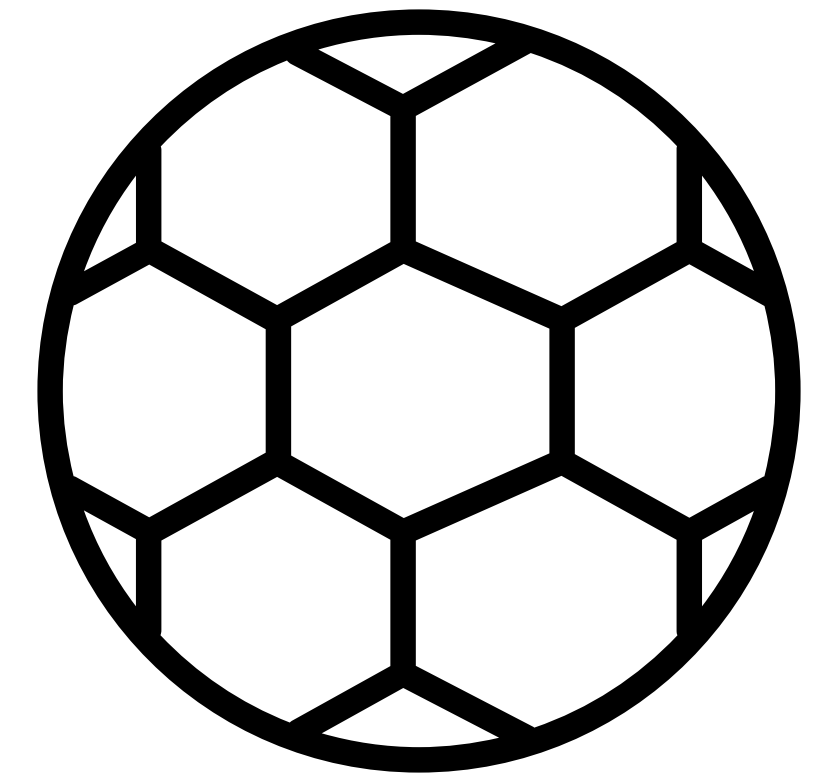

Variations of the game idea

"score goals — prevent goals."
Different ways of scoring a goal
(mats, benches etc.).

Football matches in the whole
gym / small teams in different
parts of the gym.

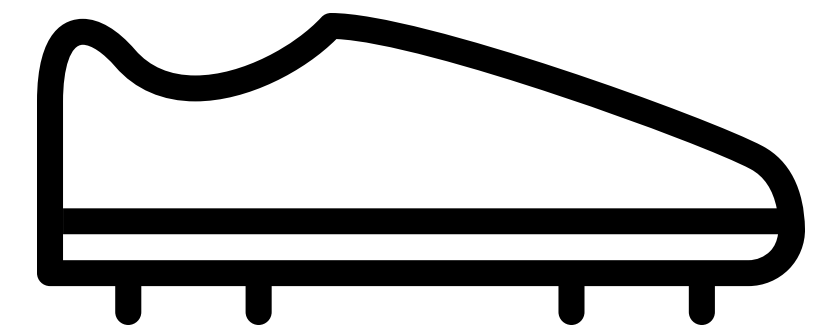

DFB Elite and Talent Development

PART III: Playfully getting to know football

Light, but motivating tasks
with the ball at your feet.
Dribbling around various obstacles.

Shooting the stationary and
rolling ball at targets.
Small competitions.

Project week at the KGS

Before the summer break, there is a project week at our school. Two weeks before the project week starts, the students vote for their favourite project on our school website Iserv. There are over fifteen projects to choose from. You need to pick three projects that you would like to do and rank them from 1 to 3.

Sometimes too many students want to do the same project and that's why we have to have a second wish/ pick. Before you choose your project you can look at the information, who is going to organize the project and what you're going to do.

Not all projects are available for every grade. The teachers try to do projects for different age groups like mountain biking or paramedics. Those projects are for the older students because it's maybe too dangerous for younger students.

But most of the time its not a big deal. We have enough projects for everyone. In the projects you will meet new students from other age groups and classes. It's always a lot of fun to learn new stuff and enjoy the time with your friends.

Work placement

In the 9th grade every student has the opportunity to do a work placement. You have to do the work placement in a period of three weeks. During these weeks you have work at least 30-35 hours per week. After three weeks you have to prepare a presentation and present it in front of your class and the school. It's your decision - which job you choose, but you should choose a work placement that is useful for your future. You also compile a work placement folder, where you are supposed to write a preliminary report, which reflects your expectations. In addition you have to do an interview with your fellow workers. Questions are for example: "Why did you choose this job?", "Which graduation do you need to practice the job?", "How are the career opportunities?"

Once a week a teacher comes to visit you and asks you if everything is okay. We advise you to write down notes daily, because you have to write 3 daily reports.

Work placement II

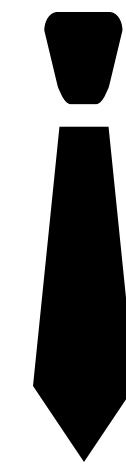

In the reports you have to describe 3 days more precisely. You can choose the day of your report - for example exciting days - when you learned a lot of interesting things.

You also have to construct a main discussion topic. You choose a topic that you want to write about. A good example for a main discussion topic is: Functions in your firm. At the end you author a final report, where you are writing about your impressions.

After the 3 weeks you have to give the work placement folder to your politics teacher. Your German teacher will collect your main discussion topic and your final report.

Have fun at your work placement!

Jonas

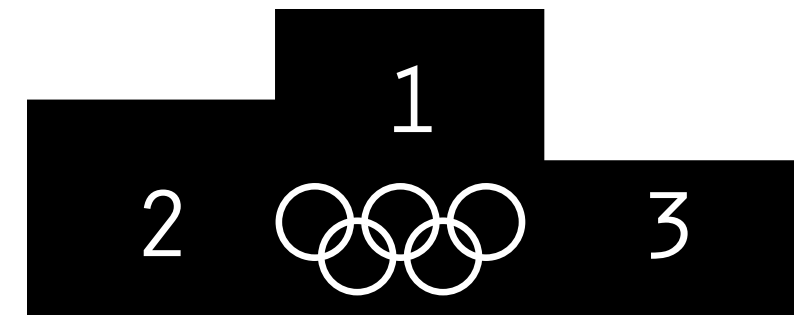

Zukunftstag Future Day

In Lower Saxony (Niedersachsen) the future day is mandatory since 2006. Lower Saxony is the first German state that launched a mandatory future day. It is for all students from grade 5 till 10. The future day is mandatory from year 5 till year 7.

Often big companies organize special events for students. Smaller companies rather offer the chance to get a look into the different aspects of their job. You have to organize your internship on your own. We do that because we learn something about different jobs. Furthermore the future day can be used as a chance to learn something about not gendered professions.

<https://www.ms.niedersachsen.de>

Jugend trainiert für Olympia

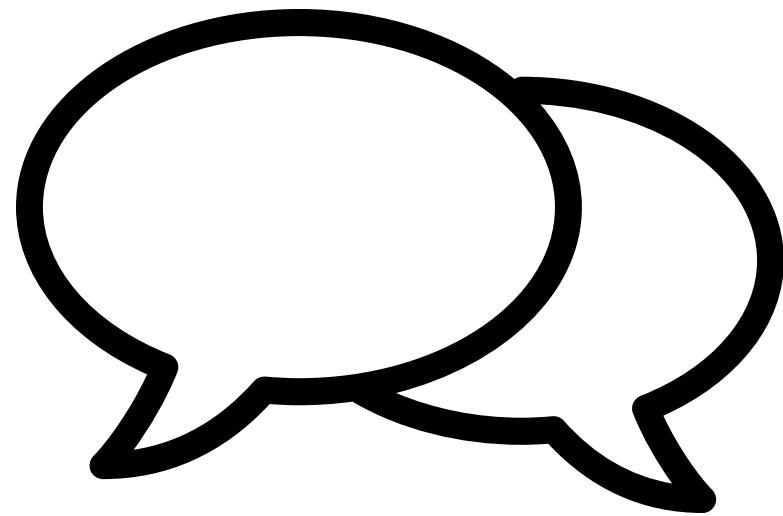

Every year "Jugend trainiert für Olympia" is taking place. "Jugend trainiert für Olympia" is a big sports competition.

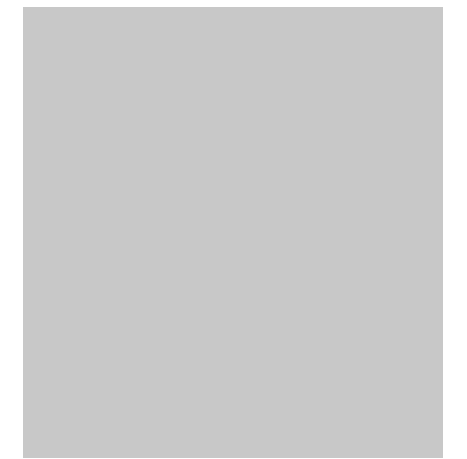

Before "JtfO" starts, P.E. teachers are looking for talented students who want to take part in the competition. Then the teacher looks for possible dates to practice as a school team. At practice the teacher looks for the most talented students for the school team. When the team is completed, the competition starts. Every week you have a tournament at different places, you have to win to get to the next round. In a boys' team there are 15 players and in a girls' team there are 10 players. When you are successful you can qualify for the "Bundesfinale" (German finals). The boys have to play on a regular pitch and the girls have to play on a smaller pitch. Boys and girls have two different age levels. It's a lot of fun. Lea

Second foreign languages

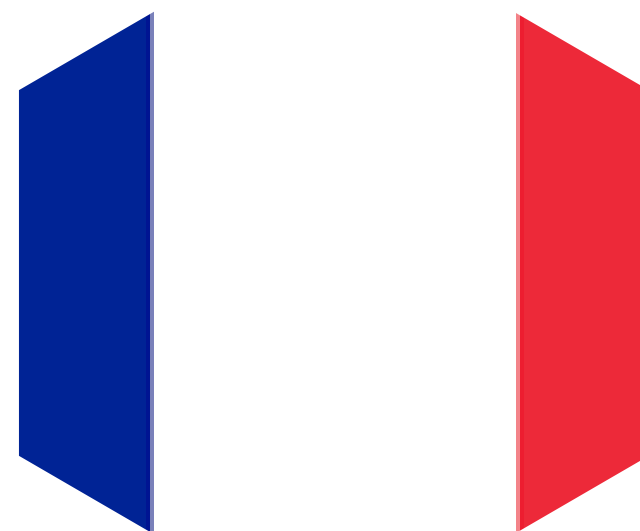

In the sixth grade you are able to learn a second foreign language (next to English). If you want to take your A-levels you have to learn a second language - you can choose between Spanish+French.

French or Spanish

In French, there are a lot of irregular verbs and different tenses, furthermore it is easier to study French because of the lower interest and smaller classes. In the 9th grade you also have to pass an oral exam and you will visit Paris for a week.

If you are in the 5th grade and you want to learn French, then you can participate in the „French project group“, where you bake crêpes, build an Eiffel Tower out of old plastic bottles and learn more about the French culture.

Class trips in the nineth grade

In the nineth grade you have the chance to visit Spain, France or England. It depends on the second language you have chosen.

Barcelona

- You fly to Barcelona by plane and you will visit the "Sagrada Familia", the "Poble Español", the "L'Aquarium Barcelona", the Picasso Museum and you get a guided tour of the city. In our free time we did a shopping tour, went to the harbour and we chilled in the hostel.

London

- To England you go by bus and ferry. You will stay in Hastings, but you will also visit London for two days. In Hastings you will get a guided tour of the town, visit the crime museum and in your free time you can go shopping. In London you will visit the London Eye, the national gallery and you can go shopping in your free time.

Paris

- To Paris you will take a bus. You visit the Eifel Tower, the "Louvre", the Cathedral Notre-Dame, the Castel Versailles and do a guided tour of the French capital.

School Administration

Here's a place to talk about
the team behind our school.
Here are the most important
teachers at our school.

1.Principal

Mr. Hohmeister

2.Assistant Pricipal

Mrs. Wedrins

3.School Leadership Nörten Hardenberg

Mrs. Plamann

3.Pricipal of the Senior High School

Mr. von Huene

4.Assistant Pricipal of the Senior High School

Mrs. Löber
